

Concepts and Categories of Functional Vision Efficiency

About the Speaker

Raquel M. Benabib, M.S., COVT

Raquel M. Benabib, M.S., COVT holds a Masters Degree in Educational Psychology from Universidad Nacional Autonoma de Mexico. She is a certified optometric vision therapist and holds NDT certification in pediatrics. She is currently administrative director of Centro de Desarrollo de Cuernavaca, Mexico. She has studied extensively under a number of developmental optometrists and has developed a unique approach to vision training that is effective in improving functional vision skills in children with a range of disabilities. Ms. Benabib lectures throughout Mexico, South America and the United States, assisting therapists and teachers in the process of incorporating vision training into their rehabilitation and educational programs. Ms. Benabib is a recipient of the Advancement in Science Award from the Neuro Optometric Rehabilitation Association (NORA), and received recognition as Psychologist of the Year in 2005 by the Alumni Association of the Universidad Nacional Autonoma de Mexico.
